

EXPLANATION

Application for change of competent authority

According to Regulation (EU) No. 1178/2011 ARA.GEN.360 and FCL.015 (d) the aeromedical file of a holder of a license/certificate or medical certificate has to be transferred to the new competent authority in case of an application for change of the competent authority. Due to your submitted application for a change of the competent authority of your license/certificate or medical certificate, a transfer of your aeromedical file to the future licensing authority is therefore also required.

APPLICATION

The application for change of the competent authority of the license and/or the medical file shall be submitted to the following address:

Austro Control Ltd.

LFA/ACW

Schnirchgasse 17

1030 Vienna

Pilots@austrocontrol.at and medical@austrocontrol.at

The application must be filled out completely in block letters (ideally electronically) and signed and sent to the above-named address of Austro Control GmbH.

After receipt of the application, the transfer of the data of your license and/or your aeromedical file will be transmitted to the future new competent authority or, in case of a change to Austria, the documents will be requested from your competent licensing authority.

Completion of the application for change of the competent authority

When all documents are complete, the new licensing authority will issue a new license and/or medical certificate based on the existing license and/or medical certificate, indicating the new state of responsibility.

Upon receipt of the new license and/or medical certificate, the original of the old license and/or medical certificate must be returned to the future (new) licensing authority.

FEES

According to Austro Control-Gebührenverordnung (ACGV, BGBl. II Nr. 2/1994, idgF) and to the Gebührengesetz 1957 (GebG) for official acts of Austro Control GmbH as application for change of the competent authority, fees have to be charged.
