

## Regulation on Air Operations (OPS) Training – Basic Principles

### Introduction

This two-day workshop serves as an introduction to the applicable EU regulations for commercial flight operations and also includes a discussion of selected topics.

### Course Content

- ▲ Regulation (EU) No 2018/1139 ("Basic Regulation") - Overview
- ▲ Regulation (EU) No 965/2012 ("Air Operations") – Overview and selected topics, e.g.
  - Management System
  - Operations Manual
  - Approval Processes
  - Alternative Means of Compliance (AltMoC)
  - Support Programme
  - Oversight by the competent Authority

### Learning Objectives

This course provides an overview of requirements in the area of commercial flight operations (CAT) and is intended to provide participants with the basics of flight operations regulations.

### Target Group

- ▲ Operations personnel of operators (CAT) of aircraft and helicopters
- ▲ Continuing airworthiness personnel
- ▲ Companies (outside EASA) who intend to implement European regulations
